

# Correcting Date / Time on Your HP 360

**\*\*Allows WiFi Connectivity\*\***

If you are having difficulty automatically connecting to the school network or any outside network, this may be due to low batteries and / or extended period of inactivity.

Follow these directions when you are  
**\*\*AT SCHOOL\*\***

## Check Date / Time

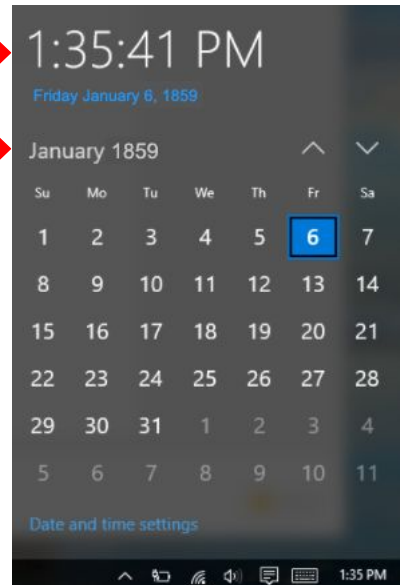

- Log into your computer

- Click on the **time** (lower right on your computer screen)

## Check Date / Time

- Check to see if the **date & time** is correct
- If either is incorrect....go to next page

## Manually Connect to WiFi

- Click on the **WiFi icon**  
(bottom of your screen)

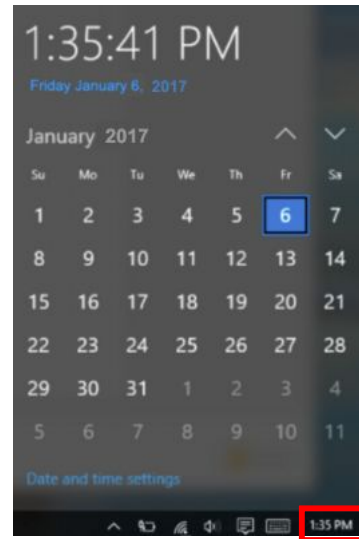

- Select **Deployment**

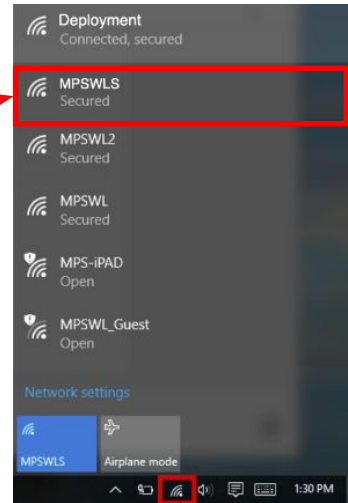

## Manually Connect to WiFi

- This should correct the date and time in 5-10 seconds
- Verify the date and time are correct (click on the time on lower right of your screen)
- If date/time are correct...go to next page

## Manually Connect to MPSWLS WiFi

- Click on the **WiFi icon** (bottom of your screen) 
- Select **MPSWLS**
- Click on the **WiFi icon** to close WiFi window 
- You will now be connected to school Wifi automatically

### \*\*\*IMPORTANT NOTE\*\*\*

- If you allow your computer to lose battery life and remain inactive for an extended period of time causing the date and time to be incorrect, these steps will need to be repeated.
